Specify your stair rod set

Proposed set contents

One rod, two decorative finials, two mounting brackets and matching fixing screws. Confirm the actual hardware supplied before installation.

Proposed lengths and diameters

24, 30, 36, 48 and 72 inches; custom lengths on request. Proposed diameters: 12.7, 16, 19.05 and 25 mm, depending on design.

Finish options under development

Polished brass, satin brass, antique brass, aged brass, polished nickel, satin nickel, pewter, matte black and bronze. Confirm finish availability and samples.

How to measure

Measure the runner width and available clearance on both sides. Confirm the overall rod length, bracket position and finial projection with your installer.

Installation and care

Stair rods are decorative only and do not secure carpet. Carpet must be independently fixed by a qualified installer. Follow the final fitting instructions and use a soft cloth for cleaning.

Ordering and trade enquiries

Request confirmed dimensions, material construction, finish, price, availability and shipping details for UK, USA and other destinations before ordering.
